Click Click Click!: Photography For Children

Synopsis

This fun-filled, informative, and up-to-date guide to making great pictures with a digital camera will appeal to kids of all ages. Budding shutterbugs will find much to learn and explore between the pages of this colorful and wide-ranging introduction to the world of photography. Illustrated throughout and written in a style that's informative and easy to understand, this book covers everything from the difference between digital and film cameras to mastering action shots and taking pictures of one's favorite pets. Sections introduce young readers to famous photographers and iconic images. Acclaimed writer George Sullivan also explains the principles of composition, lighting, and visual story-telling, and even the proper way to hold a camera. He offers valuable tips for creating whimsical, unusual shots, and for using free software to organize, share, and edit photographs. Kids will be entertained and challenged in discovering how to make exciting, high quality photographs they can share with their family and friends.

Customer Reviews

Bought this to introduce my 6-year- old granddaughter to photography thinking it would be geared toward children with illustrations that would engage them. Not the case.... It's not a book you could expect them to sit down with, with or without an adult, and find it interesting.

This book is filled with lovely photos and some great beginner tips. It is more for a child that is JUST beginning to handle a camera and you are tired of all those headless or up the nose shots. I think it more helpful if the parent goes through the book with the child and explains a little more in depth

about the different areas being discussed. Although this was written for a little bit older child, in this digital age I found it handy to show to my 5 year old.

Purchased for my grandson who is interested in photography.

too much writing for children to read.

I think this book was very informative and had an easy format for kids. Very pleased indeed with this book.
