The Little Seagull Handbook With Exercises (Second Edition)

Synopsis

A pocket-sized handbook that's easy to use and covers the kinds of writing college students need to do. The Little Seagull Handbook offers the kind of succinct advice students need about grammar, punctuation, documentation, and the writing process. In addition, it covers the kinds of writing they are most often assigned—reports, analyses, narratives, and more. The second edition includes unique help for students whose primary language is not English. Available in two versions—with and without exercises.

Required textbook for an English class. Very informative while at the same time concise. Provided plenty of examples and explanations of different citation styles. I expect to use this book as a reference when I need to write another academic paper.

This is an excellent resource for writing. It gives information on grammar, writing style, unnecessary words, redundancies, formatting and much more. A must have for any college student taking English classes and writing papers.

Nice and small pocketbook. Very easy to carry around and easy to navigate within the book with the tabs. I still hate to write but it is helpful to have and they make it as easy as it can be looking up stuff with all the tabs in place.

Awesome book! If you need it, it's required, and/or will actually use it, I say buy it. Bookstores can be expensive and this one comes with the exercises. It's tiny and easy to carry around unlike a gigantic textbook..

Very easy to understand and the book itself is not that big. I recommended this book to all the scholars, good to have it.

This is a great product and is made very well! Great price too, I would definitely reccomend this to anyone.

Love it! Lots of great helpful tools

I needed this textbook for school. It came in great condition.
