Customer Reviews

First, this book is chocked full of Bruce Roberts' beautiful photographs of the lighthouses in this region. The photographs are nothing less than SPECTACULAR! Combined with the revised and updated information on each makes this regional lighthouse guide a requirement you won't want to be without whether you're visiting the region or a life-long resident. The text contains full, rich descriptions of each lighthouse, too. I have many lighthouse books and all of Bruce Roberts' and Ray Jones' regional guides. I've read them all and used most of them while traveling. I've found them to be first rate, an excellent choice for people who want everything lighthouse between two covers. A joy to look at and informative to read.

And the reason is it was a gift from my husband and me to a friend. But he loved it so much that he's eager to go and see the lighthouses for himself and his wife, so I assume the book is attractive and have useful information. Hope we can plan (and do) the trip as soon as we can.
