The 24-Hour Tech: The 20-Step Manual To Increase Profits, Decrease Training Time And Systemize Your Mitigation Process IN ONE DAY. (The Claim Clinic Manuals Book 1)

THE 24-HOUR TECH

The 20-Step Manual to Increase Profits,
Decrease Training Time and
Systemize Your Mitigation Process
IN ONE DAY

ANDREW MCCABE

Licensed Adjuster and Xactimate® Professional

Synopsis

The 24-Hour Tech is a training manual for those in the water damage or restoration field. This manual walks the reader through the 20-Step Mitigation Process. It is intended as a complete training manual for new Water Damage Technicians who wish to quickly learn how to properly document insurance losses involving water damage. Andrew McCabe developed this process over years of water damage claims experience. He still uses it today in his consulting practice "Claims Delegates. If you want to learn quickly how to properly document and perform water damage mitigation, without paying for an expensive certification class, The 24-Hour Tech is perfect for you. The process and manual are also the perfect complement to recent grads of WRT or ASD training classes. You may understand HOW to dry a structure, but The 24-Hour Tech teaches you how to get PAID by insurance companies. The system is designed to flow directly into the Xactimate estimating software used by 90% of the insurance claims world.

Customer Reviews

Very little data, then author takes you to his site to buy "additional items" like checklist that should have been included in this manual, but was not. Would not recommend
