Foot And Ankle Anatomical Chart

Synopsis

OurFoot and Anklechart is one of our best selling charts, perfect for learning and explaining the major bony features of the foot and ankle. The large central figure shows normal foot and ankle anatomy including bones, muscles and tendons. Smaller illustrations show the following details: medial and lateral view of the bones of the foot and ankle, frontal view of the bones of the foot and ankle, plantar views of the foot, cross section of the ankle joint showing extension and flexion. Common injuries and problems are also illustrated and explained: supination and pronation, hammer toe, bunions, sprains, fractures, fracture fixation. Made in the USA. Available in the following versions: 20" x 26" heavy paper laminated with grommets at top corners ISBN 9781587791376, 20" x 26" heavy paper ISBN 9781587791383, 19-3/4" x 26" latex free plastic styrene ISBN 9781587796869.

Book Information

Poster: 1 pages

Language: English

ISBN-10: 1587791374

ISBN-13: 978-1587791376

Product Dimensions: 0.2 x 20 x 26 inches

Shipping Weight: 6.4 ounces (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars [See all reviews](#) (11 customer reviews)

Best Sellers Rank: #756,350 in Books (See Top 100 in Books) #40 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Embryology](#) #74 in [Books > Medical Books > Basic Sciences > Embryology](#) #223 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Physician & Patient](#)

Customer Reviews

As I am a practicing reflexologist, I needed a chart that shows some foot pathologies plus foot construction. This chart is perfect. It looks great matted and framed on the wall in my session room and it is right next to my framed reflexology chart.

Not only did I purchase the laminated version with grommet and get the non-laminated, non-grommets version, but this poster was beat to hell upon arrival. Some of that can be attributed to carrier abuse, but we have gotten the same poster in the past from different vendors without any

damage at all. It's so beat up, I doubt I could get any refund if I returned it. Very disappointed that I got 20" x 26" heavy paper (ISBN 9781587791383) when I ordered 20" x 26" heavy paper laminated with grommets at top corners (ISBN 9781587791376).

Just be prepared to pull out some heavy books to flatten this guy out. Other than that, it is well made and the paper is high quality.

I liked it but was best if shipped in a tube to avoid getting crunched.

Arrived damaged & unusable, so returned.

Who knows who got it, signature was not required, why not? Why FedEx and not UPS? weird Why there is no option to complain about this?

Thank you, much appreciated.

Excellent thanks for all
