Customer Reviews

I read my copy of New Jersey 9/11 Memorials (with National Memorials) the same day it arrived in the mail. This is a book that I will look through often and believe it should be required reading for all our government officials. The cooperation and self-sacrifice that was evident on that day and for several months afterward should really be the normal state of things in the United States. This book reminds us that it is the actions of ordinary people, not words, which made the difference that day. The best memorial should not be what has been engraved in stone, it should be that those still living embrace the courage of those who lost their lives and those who made sacrifices both large and small to help others each and every day. Thank you for creating this book!
