Customer Reviews

The text book is fine and exactly what I was looking for. On the other hand it stated that this would come with a printed access card, the only access code I can find was in the textbook and is telling me it has already been used. Now I am stuck last minute with no access code for a class I am enrolled in.

Was told it was brand new with Access Code but the Access Code had been torn out already.

Came with access code and was the student not teacher edition.

Arrived on time and as promised

The book that I ordered was not the instructor copy advertised.

The book was damaged by water when I received it!

Book was in excellent condition. Thanks!

Great book with good information.
