God Pharm

Synopsis

Thom Burke is everything a scientist shouldn't be: brash, sophomoric, and reckless. A genius millennial born with a silver spoon; all the potential but none of the drive. But when his academic project is revoked by a big UCSF donor, Thom throws away his privilege, jeopardizing his career to produce an illegal gene-modifying drug that could change someone's belief in God . . . by making them become one. What Thom doesn't realize is that a version of this drug has already been created - weaponized - and its creators will do everything in their power to suppress its knowledge. Even murder. Now Thom and his team must search for answers in a dangerous world filled with pious hackers, vengeful geneticists and impassioned assassins. Business, Church or State - only by entering the shadow domain of global power will Thom learn the grim truth of who truly controls our civilization. A book that is as terrifyingly real as it is fictitious, God Pharm promises to challenge the reader's perception of history and humanity, presenting a reality that may not be far from the truth.

A real page-turner. Not just because of the writing, but because of the awareness that these types of things could be happening right before us. The pharmaceutical industry is a corrupt multi-billion dollar industry, yet more and more politicians and public embrace it every day. As technology and science become more telling of the human mind, the entire world is at stake at the hands of a few...Loved it...but it scared me.

If you love thrillers staring hacking heroes, scientists as protagonists, and featuring big pharma and the CIA as antagonists, read God Pharm, by Bennett Smith. Once I started, I couldn't put this book

down. I came close to missing my own publishing deadline! God Pharm is a timely conspiracy thriller that will blow your mind.

I am addicted to this book. I got in trouble at work because I kept hiding in the bathroom trying to read it. I had to tell my boss I had food poisoning so I could go home and keep reading. Please tell me there is a sequel already in the works? This would make a great movie, its so vivid.

I simply could not put this book down! If like suspense and are of the belief that the gov't will do anything to suppress their dirty secrets - read God Pharm! It will keep you entertained and make you think.
